**CONNECTING STRENGTH**

An overhead view of several people sitting around a table, looking at a large sheet of paper with architectural drawings. One person is wearing a white hard hat, and another is wearing a blue hard hat with the Oak logo. A yellow safety vest is also visible. The background is a light-colored tiled floor.

We are

**OAK**

PROJECT MANAGEMENT

CONNECTING STRENGTH

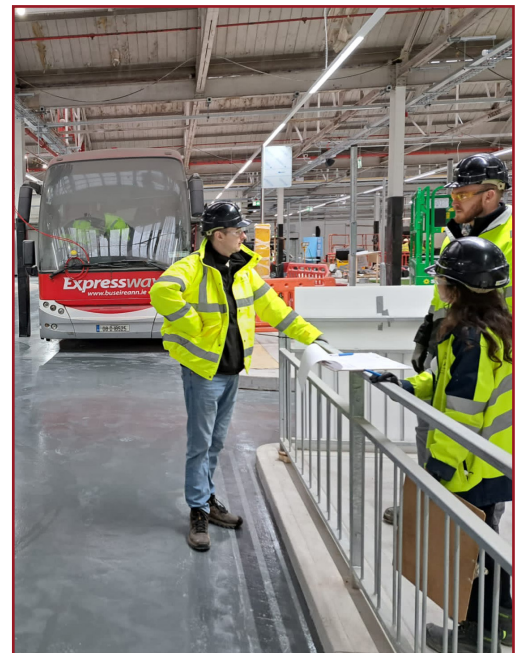

# Project Management Division

Providing ethical and sustainable engineering, construction and project management solutions that enhance the lives of people, the community and our environment.

**We are an ethical and dedicated team of project management professionals that go the extra mile to achieve your objectives and goals.**

We are committed, focused on delivering high quality workmanship, outstanding client service and unrivalled value for money.

## Commitment to Quality

Quality is in our DNA! Our team is committed to providing our clients with quality service, material and products, backed up by recognised certification in everything we do.

# Our Capabilities

We engage with our clients on individual project management services, including project or cost management, or as a comprehensive multi-disciplinary team.

Our trusted and long-standing subcontracted supply chain includes some of Ireland's most respected engineering and related practices. It consists of a wide range of subject matter experts in the fields of energy, housing, sustainability, planning, environment and data centres.

## Sample Project

The initial design start for the project was in 2019, taking the exploratory discussions and plans to sketch concepts and then creating a design that has not changed much during the construction. The build started in January 2022, which included sourcing the vehicles and organising all our approved contractors. At any time, we have had up to 60 people working on site, including project management, mechanical, electrical, civil, structural and architectural.

The project was complete in January 2024 and has been deemed as the first of its kind anywhere in the world. For more information on the project visit our website

### *So what do our clients say....*

*"We've been very blessed actually having OAK as our main contractor and project manager on this unique build...their suggestions, their innovation and their ability to realise our vision for what we want here are central and core to the success of this project."*  
Chris White, CEO Vision Ireland
